RECORD

The "Miracles from Molecules" music on this record was composed especially for the Monsanto attraction at Disneyland, "Adventure Thru Inner Space." Participating in a ride through the inner space of a snowflake, the visitor, in his "Atomobile", experiences the illusion of shrinking to the size smaller than that of an atom. Narration adds to this unusual experience.

Dr. Charles Allen Thomas, former President and Chairman of the Board of Monsanto, worked closely with the late Walt Disney on the idea and visualization of this exhibit. He has said that the techniques used in

the Monsanto attraction could lead to an entirely new method of learning complex scientific fact by immediate experience.

At Monsanto, advances in research are occurring every day. Over half of the hundreds of products Monsanto manufactures today were not in existence 10 years ago. In virtually every area of everyday life Monsanto chemicals, plastics, chemical fibers and petroleum products contribute to the health, welfare, safety and pleasure of man. In over 90 countries of the free world, sixty thousand employees are helping to add a bit of tomorrow to today.

NEW FROM RSO

" I WANNA BE SEDATED "
RS-1055 The Ramones

"I Wanna Be Sedated" by The Ramones, culled from the "Times Square" Soundtrack album, has already enjoyed a large measure of familiarity through its inclusion on the Ramones' "Road To Ruin" LP.

With the nationwide release of the "Times Square" film on October 16th, this track promises to broaden the scope of it's popularity considerably. Though not relying on the film to make its statement, "I Wanna Be Sedated" represents a high point in "Times Square", which can only supplement the track's already strong posture.

Enjoy,

Dear Program Director:

"The Odd Couple," Tony Randall and Jack Klugman,
as well as our own "Germ Couple," Sal Monella
and Arnie help make the point that nobody needs
food poisoning - certainly not your listeners.
We have some new music and a few smiles inside,
too, all helping make points on food safety.

There are 2-:60's, 5-:30's and 1-:10 in English
and a :60 Spanish Language spot. We will appreciate
your airplay and your comments.

This record is dedicated to the memory of the best real special friend I ever had in music who came to achieve worldwide acclaim, Danny Gatton. I'm glad you liked these new songs, but I can't believe you left us down here only a few days ago on Oct. 5, 1994. I didn't love you 'cause you were known as the world's greatest guitar player. I loved you the same way you loved me. For only bein' what we are. You knew me and Pepper (who you affectionately called "Butch") would never ask you for help after you made it, but you sensed it and you were the only one in the position to help lift me up when I was all the way down. You didn't have to do it, but you cared enough to want to. I'm really gonna miss ya man. Till we see ya again, rest in peace, you deserve it.

A whole heap of thanks go out to my California buddy James Intveld who wanted to put the time into makin' these tunes sound right with the real feel I wanted. You're the best. Another big thanks has to go out to Laurence Beall for pushin' my lazy butt back into this end of it after so long. Thanks to Harry Fontana and Barbara Feleti for the rehearsals and everyone else who gave their time to this project. Last, but by far least my special thanks go out to another ole crazy rockin' ass cat like me, Willie Lewis, who loves rock-a-billy and flat out rock 'n' roll as much as I do. That's why the "Rock-A-Billy Record Label" is the only label in the world that I want the first recordings I've done in more than 30 years to come out on. You know why that's no bullshit, 'cause me and Willie both know there ain't much dough in doin' "good time real rockabilly" but hot damn man we can sure have some fun!

MONSANTO PRESENTS

"miracles from molecules"

"ADVENTURE THRU INNER SPACE"

"miracles from molecules"

presented by Monsanto

A
33 $\frac{1}{3}$
RECORD

The "Miracles from Molecules" music on this record was composed especially for the Monsanto attraction at Disneyland, "Adventure Thru Inner Space." Participating in a ride through the inner space of a snowflake, the visitor, in his "Atomobile", experiences the illusion of shrinking to the size smaller than that of an atom. Narration adds to this unusual experience.

Dr. Charles Allen Thomas, former President and Chairman of the Board of Monsanto, worked closely with the late Walt Disney on the idea and visualization of this exhibit. He has said that the techniques used in

the Monsanto attraction could lead to an entirely new method of learning complex scientific fact by immediate experience.

At Monsanto, advances in research are occurring every day. Over half of the hundreds of products Monsanto manufactures today were not in existence 10 years ago. In virtually every area of everyday life Monsanto chemicals, plastics, chemical fibers and petroleum products contribute to the health, welfare, safety and pleasure of man. In over 90 countries of the free world, sixty thousand employees are helping to add a bit of tomorrow to today.

" I WANNA BE SEDATED "
RS-1055 The Ramones

"I Wanna Be Sedated" by The Ramones, culled from the "Times Square" Soundtrack album, has already enjoyed a large measure of familiarity through its inclusion on the Ramones' "Road To Ruin" LP.

With the nationwide release of the "Times Square" film on October 16th, this track promises to broaden the scope of it's popularity considerably. Though not relying on the film to make its statement, "I Wanna Be Sedated" represents a high point in "Times Square", which can only supplement the track's already strong posture.

Enjoy,

This record is dedicated to the memory of the best real special friend I ever had in music who came to achieve worldwide acclaim, Danny Gatton. I'm glad you liked these new songs, but I can't believe you left us down here only a few days ago on Oct. 5, 1994. I didn't love you 'cause you were known as the world's greatest guitar player. I loved you the same way you loved me. For only bein' what we are. You knew me and Pepper (who you affectionately called "Butch") would never ask you for help after you made it, but you sensed it and you were the only one in the position to help lift me up when I was all the way down. You didn't have to do it, but you cared enough to want to. I'm really gonna miss ya man. Till we see ya again, rest in peace, you deserve it.

Billy Poore, Oct. 8, 1994

A whole heap of thanks go out to my California buddy James Intveld who wanted to put the time into makin' these tunes sound right with the real feel I wanted. You're the best. Another big thanks has to go out to Laurence Beall for pushin' my lazy butt back into this end of it after so long. Thanks to Harry Fontana and Barbara Feleti for the rehearsals and everyone else who gave their time to this project. Last, but by far least my special thanks go out to another ole crazy rockin' ass cat like me, Willie Lewis, who loves rock-a-billy and flat out rock 'n' roll as much as I do. That's why the "Rock-A-Billy Record Label" is the only label in the world that I want the first recordings I've done in more than 30 years to come out on. You know why that's no bullshit, 'cause me and Willie both know there ain't much dough in doin' "good time real rockabilly" but hot damn man we can sure have some fun!
